City of Painesville Offering Home Energy Audits

Painesville, OH: The City of Painesville Electric Department is pleased to announce another service offering to our customers. The Department is now offering home energy audits. A team of trained and certified auditors from the Electric Plant will come to your home to evaluate energy usage and make recommendations to help you save on your energy bills. The audit team will look at a number of energy traps from your windows and doors to your insulation levels. They will even check on energy usage of your home appliances. After the audit is complete you will receive a written report detailing where you are losing energy dollars and how to fix those issues. Call the Electric Plant at 440-392-5954 for more details or to schedule an appointment.
